OVVO 16-Piece Lockable Stand

OVVO Optics 5 lbs lockable display stand, designed in FiDU technology.

1 x

**Materials**
inox steel

**Colors**
stainless steel/inox
white base

**INSTRUCTION FOR USE AND MAINTENANCE**

The display is made of mirror-polished stainless steel and requires an indoor environment. Outdoor exposure to the display may cause damage.

Product should be cleaned using a soft, clean cloth. No detergents should be used as they might cause scratches or other damage to the surface.

**WARNING:** Small pieces pose a choking hazard. Please keep away from small children at all times. OVVO Optics urges users to not allow customers to touch the display due to its unique design. Any use of display outside of its intended purpose may result in injury, specifically regarding the attached weight.

Please contact OVVO Optics for questions: 1.855.393.6886
1. Lay the stand flat on a soft surface, mount base to the stand using 4 flat head screws. Remove the wooden support beam.
2. Screw the steel sockets through the precut holes and tighten them to the stand.
3. Screw the rods into the racks.
4. Insert the rods into the sockets on the stand. Secure them using two hex screws for each rod, tighten the screws with provided Allen wrench.

Connecting the FRAME AND WEIGHT (Not Pictured):
1. Hang the 5 lbs weight, with frame attached, to the hook located on the top of the display. Enjoy your new OVVO Display!
